3,753 Traffic Accidents in 1952

The Essex County Council Safety Committee has been getting some special facts and figures on Essex County accidents from the Dept. of Highways and the Safety Bureau, Warden Morris reported.

Last year we had 48 people killed and 1614 injured in a total of 3,753 traffic accidents in the County. In the 5 years from 1948 to the end of 1952, we have had near 7,000 people injured, 239 killed in more than 15,500 accidents in this County.

"It is perhaps not generally realized what a huge and growing problem traffic safety is. Here in Essex we have a motor vehicle registration of nearly 60,000 cars and trucks. This is increasing all the time."

"What is probably the largest non-resident motor vehicle traffic in the world goes through Essex County. In a single month such as July, nearly 10,000 U.S. commercial vehicles, over \$2,500 U.S. tourist cars on visiting permits, and over 230,000 vehicles labelled "local traffic" came from the United States into Essex at the Windsor Bridge and Tunnel alone.

A big percentage of Canadian cars, visiting the United States also pass through Windsor.

"This means that we have a traffic safety problem here of huge proportions and the County Council is anxious to do what it can to help keep down our accident losses for the benefit of both resident and visitors."

Lets Take A Look At The Record

The expression, "Let's take a look at the record" recalls vividly to mind one of the most outstanding personalities of our generation. His name was Alfred Smith, four-term governor of the great State of New York, U.S. presidential candidate and bright and shining light in the darkness of political corruption and intrigue.

In his political speeches he was wont to say, "Let's look at the record" and then proceed to recount the record of his political opponents and of the measures they sponsored and endorsed. In his private and spiritual life Al Smith followed a similar course. His sole norm in making decisions in all phases of his life was according to intimates, whether it was right or wrong. He tried to keep his own record straight with God.

St. Aloysius Gonzaga, called the Angelic Youth, expressed the same idea in a different way. He used to say, "What for eternity?" thereby determining how that which he was about to do would be to his advantage or disadvantage on the day of judgment.

At various times in our lives, particularly during missions, retreats, preparation for confession etc., if we are serious about our lot in eternity, we emulate the example of the great Christian warrior, Al Smith and of the saintly Aloysius by probing into the record of our life.

Every prudent and successful business man keeps an account of his profits and losses and frequently takes inventory of his assets and liabilities. Depending on his findings, he changes his policies, retrenches, holds the line or expands, as his position indicates.

How foolish is the man who has less concern for his eternal welfare than for his temporal affairs and passing interests. How blind the majority of men who serve mammon rather than God, living as though there were no after-life and no judgment, heaven or hell.

So, let's take a look at the record. Twenty, thirty, sixty or more years of our life has been spent. How does your record look to you? How will it look to the Judge of that fateful day? The Germans have a saying, "Every man must carry his own hide to the market." Every man must give a personal account of every thought, word and deed of his entire life.

In the light of these considerations, how about taking a frequent "look at the record" and making every decision in life with the question in mind, "how will this appear in the light of eternity?"

A GENERAL MOTORS VALUE

Big truck users, small truck users, all truck users
buy more Chevrolet trucks than any other make.
It stands to reason Chevrolet trucks must offer
more of what you want.

When you stop to think about it, the best
proof of outstanding value in any product is
continued public preference. For when
folks discover a "good thing" the word
travels fast, and sales go up and stay up.
That's the way it is with Chevrolet trucks.
Year after year Chevrolet trucks outsell
all other makes. And they're the top sell-
ing trucks in Canada today.

This is a mighty important fact to consider
before you buy your next truck. You'll
also want to consider that, while Chevrolet
trucks give you more features, you want
their price is unmatched for value.

Whatever your hauling or delivery need,
think it over, when you're thinking of a
new truck. Then come in and talk it over
with us.
